## **Cookies**

Like many sites, this website may use cookies from time to time.

Cookies are small data files that a website is able to place on a user's hard drive to record aspects of that user's experience of the website. For example, we may use cookies to record that a user visited a particular section of the website, that their browsing software was a particular version or to ensure that

online applications and transactions do not require you to re-input information when moving between web pages. In this way, cookies can improve the operation of the website, and make the experience more efficient, more enjoyable or more personalised. Importantly, in depositing information on a user's computer and referring to it later in the same session (sessional) or on a subsequent visit (persistent), cookies do not need to identify the user or record any personal information.

The default settings of browsers like Netscape and Internet Explorer may allow some or all cookies, but users can easily take steps to erase cookies from their hard-drive, block all cookies, or receive a warning before a cookie is stored. However, some parts of sites may not function fully for users that disallow cookies.
